RÉSUMÉ

A short story of where I've been

Education researcher with a background in sports education. I explore how technology can support inclusive and engaging learning experiences. Below is the honest version — wins, lessons, and the things I'm proudest of.

Experience

2021 — 2025

Wushu and Traditional National Sports

Luoyang Normal University

Studied exercise physiology, sports anatomy, national physical education and pedagogy. Built foundational knowledge in motor learning, sport pedagogy and physical assessment. Practised instructional design for physical education and developed strong skills in communication, coaching and reflective practice.

2026 — NOW

Master of Digital Education

XJTLU

Studied key modules: introductory qualitative research methods, 21st-century STEAM integration, and digital education curriculum design. Developed competence to embed artificial intelligence into classroom instruction, analyse educational technology practices and design technology-enhanced learning activities.

Skills

IELTS

Mandarin Level 2 Grade A

Teacher Qualification Certificate

Youth Physical Fitness Training

Physical Education Teaching

National Level 2 Athlete (Wushu)

What I care about

- Team cohesion
- Positive working atmosphere
- Building shared goals
- Development of teaching skills
